K-Seal[®] ULTIMATE

Permanent Head Gasket Repair - A unique formula specially developed to permanently repair serious head gasket and porous block problems

- Simple To Use - Just Shake, Pour & Go! - Works in Minutes
- Can Be Added to a Hot or Cold Engine
- Can Be Added to the Overflow Tank
- With Anti-Rust Protection
- Freeze Proof to -38 Degree Celsius
- Full Money Back Guarantee
- Independently tested to ASTM D-3147
- Developed and Made in the USA

- Just Pour & Go - No Need for Expensive Workshop Head Gasket Repairs!
- K-Seal ULTIMATE is the simple, permanent fix for blown head gaskets, cracked heads and blocks, and porous engine blocks
- Guaranteed repair for the life of your engine or your money back!
- K-Seal ULTIMATE's unique formula works with all water-cooled engines; there's no need to drain or flush the cooling system
- Just one bottle of K-Seal ULTIMATE is enough to fix blown head gaskets and cracked heads in cars, SUVs and small trucks. For larger engines, simply use two bottles
- Simply shake the bottle, pour K-Seal ULTIMATE into your cooling system, and you're back on the road

Part # 7K3501

Don't just seal it, K-Seal[®] it!

S A Auto Accessories Pty Ltd

K-Seal[®] ULTIMATE

- ◆ K-Seal ULTIMATE is an evolution of the K-Seal technology designed to specifically target head gasket and block failures
- ◆ K-Seal ULTIMATE provides several enhancements over K-Seal original, not least is the larger bottle size delivering more of our independently tested coolant leak solution to your vehicle
- ◆ The added K-Tek formula now helps to reduce friction and adds anti-corrosion properties which help to extend the life of cooling systems components such as the water pump and radiator
- ◆ The added anti-freeze protection means that it will not freeze if stored above -38 degrees Celsius, so it will always be ready for use just when you most need it
- ◆ K-Seal Ultimate uses the safer but more expensive additive propylene glycol, giving customers the best possible solution when it comes to making a successful repair for cooling system leaks

Don't just seal it, **K-Seal[®]** it!
